Sir:

Responsive to the Official Action mailed August 20, 2003, please amend the subject patent application as follows:

¹ This amendment is supplemental to applicant's submission filed November 20 of 2003 which, in view of the new rules requiring "strikeout" for deletions in contrast to "underline" for additions, included a confused problem where both the "struck out" and "underlined" portions appeared indistinguishable from one another as underline only.

The undersigned called the examining attorney to warn him in advance of the problem with the in-transit submission dated November 20 of 2003. Now that that problem is cured by the present amendment, it is submitted as supplemental and as properly responsive. In all other substantive respects, this supplemental amendment is the same as the November 20, 2003, amendment.
